THE MOST CLASSIC PRECIOUS STONES WITH A MODERN TWIST

Our Mini Sweetys are handcrafted with love by our skilled craftsmen and craftswomen. A chic and luxurious touch for every day.

Our magnificent Rutile Quartz is layered on white or grey mother of pearl or on onyx for the black version. Wear them together or in combination with one of our 50 other color stones.

of diamonds

A high tide of diamonds.

The iciness of the diamonds melts into delicate pavés with shimmering curves of pink and white gold. The Waves collection consists of rings, earrings and pendants in different dimensions and in an orchestrated firework of diamonds. Waves are classy, elegant and timeless.

Mini Waves

Just like the slightly larger Waves, BIGLI' s Mini Waves have the same seductive, undulating shape that intensifies the reflection of the light. Because of their smaller shape, Mini Waves rings can be stacked for a stunning effect.

Mini Waves rings

Our Mini Waves rings exist in 4 dimensions and 4 colors: white diamonds, brown diamonds, brown diamonds with black rodium and black diamonds. Choose your perfect and personal combination.

Mini Waves Bracelets

Whether you prefer rigid bands or a small chain to wear next to your favorite watch, we have the complete range. This redesigned basic will catch your eye.

chloé

If you like strong forms, round curves and aren't afraid of volume, the Chloé line is for you. Named after my youngest daughter Chloé, this is the kind of statement jewelry I love to wear.
Laurence

One of our favorite stones is rutilated quartz, which you can find in our different lines. Rutilated quartz, also known as Angel's Hair, is a type of transparent quartz with needle like inclusions.

white

It is perfect on our largest Chloé ring because the height and shape of the stone allows the needles to make magnificent 3-dimensional structures. A real piece of art which is always unique.

black

mini chloé

It is almost a tradition at Bigli: everytime we design a new collection the mini variation follows creating stackable rings in different shapes and sizes. The Mini Chloé's fit together like a jigsaw puzzle and are just waiting to become your talisman.

THE BRAND

WHO-WHAT-WHERE-HOW- WHY-WHEN

In Belgium the name BIGLI is a synonym for colorful, elegant, modern jewelry that's easy to wear every day. The driving forces behind BIGLI are Laurence Aereens and Thierry Spitaels, partners in business and in life. Laurence meticulously manages the brand's image while Thierry takes care of customer relations. Founded in 1997, BIGLI soon gained a special place in the luxury market by shaking up the traditional jewelry craft while still following its conventions, using precious materials, exclusive cuts, meticulous paves, refined settings and a unique layering technique with captivating chromatic effects. Over a period of twenty years, BIGLI has developed around ten lines that are constantly reinvented, resulting in a dazzling timeless variety. Customers can add new items to their own collection with a matching pendant or ring, year after year. BIGLI's contemporary pieces always stand out with their simplified yet incredibly strong aesthetics!

OUR PHILOSOPHY

Creating the purest form of beauty, the beauty of simplicity, that's what we want to achieve. To combine soft and simple shapes into something intrinsically valuable, into a thing of beauty that is truly meaningful. Into an exquisite object that will tell people a story. Your story, and ours. It's been twenty years now since we founded BIGLI, and every wonderful moment of our lives has been captured in a jewel. Graduations, engagements, weddings, the births of our grandchildren: they were all linked to a new BIGLI piece. Those were moments of intense emotion, of love, joy, fulfillment and harmony. Full of the best that life can offer. So our jewelry means much more to us than the simple search for refinement, or for beauty without a soul. We want these jewels to tell your story as well. We hope that they will embody the best moments in your life. That they will make you shine because they were meant to make you remember those moments. That you will feel beautiful, inside and out, and that you will pass this brightness on.

ONE FAMILY

First of all, I would like to mention
how much everybody means to us.

Our fantastic staff, passionate office team,
devoted salesmen, skilled craftsmen and craftswomen
and, of course, our family and friends...
But also our motivated jewelers and their customers,
and all the people we meet every day.

It is blissful to have you around.

This flow of interactions is
my biggest source of inspiration and energy.

We would not exist without you.
Thank you so much for being there.
Enjoy life and Shine On!

Laurence

PRECIOUSNESS AND POSITIVE POWER

BIGLI jewels are crafted from the finest 18-karat gold in combination with carefully selected and beautifully cut diamonds to keep you shining forever. The joy they bring, however, comes from the magnificent colors of the most radiant and luminous stones. Through the BIGLI process of clever superposition, shades and hues are even more refined, so in our jewels, the color variations are endless and really unique. And when you start combining or stacking them, colors will interact and become even brighter.

How do you make your choice? Choose a shade of green for hope. Pick blue because you long for the sound of the waves. Or project your passion into a fierce red gem. Choose a white moonstone for its pureness and grace. Or because it increases your intuition, so they say. Let yourself be mesmerized by citrine, the quartz that brings sunshine into your heart. Pick an aventurine for positivity or a tourmaline for harmony.

These stones are as old as Earth Itself. They came into existence through pure chemistry when our planet was formed. Precious stones have been man's companion throughout history, not only because of their substantial beauty, but also because of their powers to heal, to protect, to energize and to soothe. For some, it's as simple as physics, for others it's beyond understanding. However, it's just merely exciting to assume that stones possess qualities that the eye can never capture.

Whatever you may believe in, when you wear these bright and colorful gems, they will reflect your own mood, your energy, your inner beauty. And most of all: every happy memory you want them to embody.

The BIGLI team is very proud and thankful to have such exceptionally skilled craftsmen and craftswomen. You can see the result of all these years of close collaboration in each jewel. They use 18 Kt gold and diamonds, exclusive cuts, meticulous pavés and refined settings. They know all about our unique layering technique, combining different precious stones, and they transmit their skills from generation to generation. Thanks to this technique we have a range of more than 49 magnificent colors creating shades with subtle brightness that make them either velvety, pearly or milky.

Our setters work meticulously to bring the best quality you could expect. Every jewel is made by hand and therefore unique. Every color stone is different. Our qualities and collective efforts all serve the same goal. Making beautiful jewelry that will make you shine and embody the most precious moments of your life.

Shine on!

TIMELINE

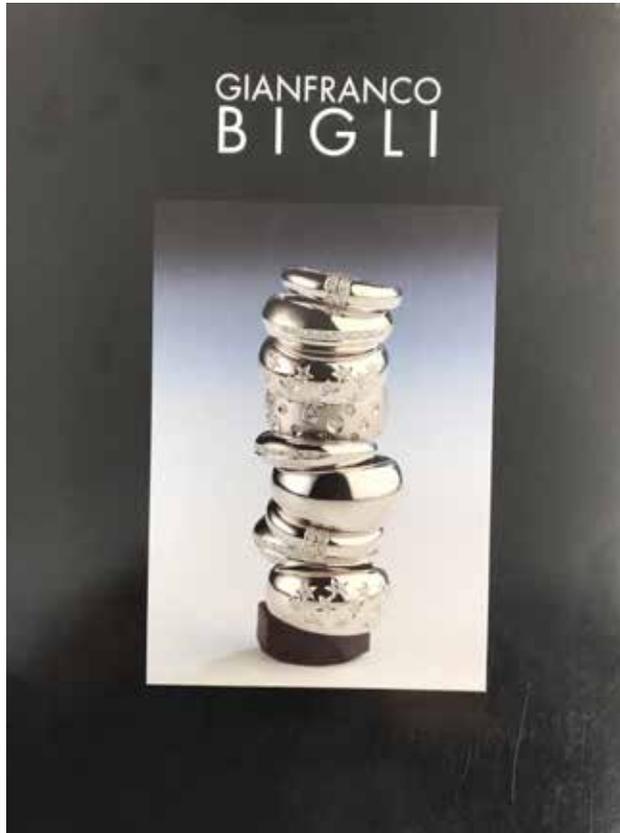

A big part of our lives is interweaved in the brand that my husband and I created with all the love in our hearts since 1997. Our philosophy has remained intact, running strong through this period. And the creation of our collections seems to flow from one into the next. Just like experiences in life.

I am grateful for all these beautiful moments in life. What more can you want than a job that makes other people happy?

Laurence

1997

Creation of our brand **Gianfranco BIGLI**, to create colorful, elegant and timeless jewelry that is easy to wear every day.

The journalists describe it as the perfect marriage between Italian frivolity and the strictness of north Europe.

Our very first picture launched a new era, and was a source of inspiration for many people in the jewelry business.

2003

This is our very first model with a mix of **colored stones**.

This is the start of our passion for colored gemstones; especially the cabochon cut.

We use this cut for many of our other lines.

2005

First **Moments** stackable rings.

Here we play with the idea that jewels are a reminder and a symbol of the most precious moments in our lives.

Engagement, marriage, the birth of a child...

Moments bring back those memories via different jewels which can be combined.

Always personal and unique thanks to the infinite possibilities.

2007

BIGLI
10 YEARS OF JEWELRY

Presentation of the first **Waves** that remain changeless.
10 years later the MINI WAVES are born.
Exactly the same shape but in a mini version so it can be
combined more easily.

2008

First creation of **Sweety** in 7 colors.
For the first time we used a new layering technique to
combine several layers of natural color stones.
Two years later we made a simplified version which
enables us to combine different rings.
This was the start of our MINI SWEETY.

2009

First **MINI SWEETY** in 10 colors.
We couldn't have guessed that this would become our biggest success story.

2012

Birth of my first granddaughter **Milla**.
At the same time we launched a jewelry line which was
named after her. Milla has grown up into a very tender,
sensitive and romantic girl. And this is exactly how
I would describe this collection.
I think this is very remarkable.

2013

Imagine a cold and stormy day in the beautiful Cap Blanc Nez with a top model and... totally out of the blue ...
my neighbor's ram appears. You have the perfect recipe for an unforgettable image.

2014

Birth of Lilly, my second granddaughter, and the creation of the **Lilly Bloom** collection.
The prototype of the big Lilly Bloom ring in Rutile quartz is for her when she turns 18.
And again, we find the same coincidences as Lilly's personality is the perfect description of the jewel.
Lilly is exuberant, cheerful and has a lot of audacity.
Plus, she shines!

2015

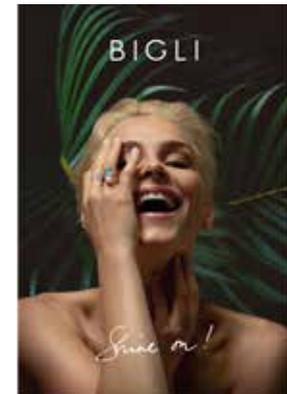

Thanks to the skills of our stonecutters and their layering technique, we have developed a range of 49 magnificent colors, making us unique.

2016

Time for some introspection.
Identity-collections-style.

BIGLI

Our philosophy is increasingly relevant and visible in everything we do.
And Gianfranco BIGLI becomes BIGLI.
This infusion of new energy will result in lots of new collections over the next 20 years.

2019

We celebrate 10 years MINI SWEETY

Introducing interchangeable elements between different lines with a delightful mix of precious materials.
It's all very bright, very fresh and very BIGLI.

We can't wait to show you!

WAVES

Craftsmanship with a contemporary spirit

A HIGH TIDE OF DIAMONDS

The radiance of the diamonds melts into delicate pavés with shimmering curves of pink and white gold. The WAVES collection consists of rings, earrings and pendants in an orchestrated firework of diamonds. WAVES are classy, elegant and timeless. It is BIGLI's most subtly glistening classic.

A range of different dimensions are available to suit your mood. Sparkling pavés caught in sensuous curvy pink and white gold.

MINI WAVES

The perfect shape for ultimate light reflection

Just like their next of kin, WAVES, BIGLI's Mini WAVES have the same seductive, undulating shape that intensifies the reflection of the light. Because of their smaller shape, Mini WAVES are perfectly stackable on one finger. Nevertheless, they are just as beautiful on their own. Mini WAVES are available in different colors of gold, combined with white, brown or black diamonds.

DIMENSIONS

for your own perfect and personal combination, we have four ring dimensions. This way you can make your personal combinations and choose the volume you are comfortable with.

THE COMPLETE RANGE

Pendants, earrings and bracelets are also available in different dimensions because a beautiful basic must suit you perfectly.

4 COLORS

We use black, white and brown diamonds. Brown diamonds can come with black rhodium. This makes 4 colors. Again; for your own perfect and personal combination.

MINI LEAVES

Nature, diamonds and light.

Inspired by the beauty of nature, these stunning leaves complement our Mini Waves models. Using the same undulating shape as our Waves and Mini Waves collections, Mini Leaves reflects the light perfectly, adding sparkle to your day.

The curves melt together as if they were one. A small or large circle, a small or large leaf: everything fits together beautifully. Your jewelry is so comfortable, you'll want to wear it forever.

Mini Leaves rings are available in 2 dimensions. Pendants and earrings are available in 3 dimensions.

CHLOÉ

Wearing Chloé makes a beautiful statement.

The Chloé line was named after Laurence and Thierry's youngest daughter, as a reminder of female strength, of love, of the unpredictable.

Moreover, the Chloé rings are proof of pure craftsmanship. Their magnificent colors are the result of the superposition of different stones.

In their splendid hues and headstrong curves, they bring a hint of the carefree seventies to light. Enjoy life with Chloé, just a little more.

THE ROMANTIC VERSION

The Chloé line also has a version with one shank. It is a bit more romantic and curvy, and a tiny bit smaller than the original Chloé model.

MINI CHLOÉ

A new generation of combination rings with mesmerizing colors.

JIGSAW PUZZLE

Mini Chloé is the small version of the Chloé model. The same splendid hues and headstrong curves are waiting to be combined. The two different dimensions match like a puzzle. Nevertheless they are also nice to be worn on their own. The pendants in smaller dimensions are just waiting to become your talisman and the earrings bring a joyful touch of color to your face. Enjoy life with Mini Chloé, just a little more.

MORE THAN RINGS

The Mini Chloé pendants are available in two different dimensions. The pendants are little talismans you always want to wear. Please check our website for more models.

NICKI

Ode to the seventies

STRONG FORMS, PURE DESIGN AND FANTASTIC HUES.

Nicki is an ode to the mother of Bigli's designer Laurence. Her style and attitude was always an example to her. The freedom, an extravert mind, experimental forms and strong design. This is the look of the glamorous 70s brought to life.

MINI NICKI

One is good, two is better

THE POWER OF ICONIC DESIGN

Mini Nicki is the smaller version of the Nicki collection. Here are the same splendid hues and headstrong curves just waiting to be combined. By using the same shape as the Chloé model we have made a stronger architectural version.

The gold border reinforces the stone. It demands a lot of skill to be cut in the right shape. A beautiful line with strong aesthetics. Enjoy!

INFINITY

INFINITY is a real treasure both in substance and in form. The incredible simplicity of the curve, endlessly going up and down, is combined in one unique jewel using the highest quality diamonds, all arranged in fine and tight settings. An everlasting joy for the senses and the mind, for infinite emotions.

INFINITE HARMONY

This purest form of timeless beauty comes as a pendant, earrings and a ring

MOMENTS

Created to materialize all your special precious moments in life

MIXING AND MATCHING

MOMENTS enables you to incorporate your memories into a precious stone. The rings are designed to be combined, united and mixed. The collection offers endless possibilities to fulfill your desires year after year, moment after moment.

For your perfect match, we have four ring dimensions. This way you can make your personal combinations and choose the volume you are comfortable with.

MILLA

Pure bliss, incorporated in a jewel

PURE BLISS

Tender flowers, elegant drops, a freshly budded rose or a four leaf clover encrusted with diamonds. Precious, but at the same time incredibly versatile, to be worn always and everywhere.

LILLY BLOOM

The expression of pure blossoming joy

NATURE'S GREATEST GIFT

LILLY BLOOM is the expression of pure blossoming joy within a whole palette of colors and whirling petals that are finely accentuated with diamonds. Nature was BIGLI's greatest source of inspiration for these delightful pieces of jewelry.

Rings can be worn alone or in combination. For your perfect match we have four ring dimensions.

MOON

Power and passion in combination with gentle softness

POWERFUL & STREAMLINED

The MOON collection symbolizes power and passion in combination with gentle softness. The volume of the stones enhances the depth of the unique BIGLI colors. It makes them even brighter and shinier. A series of diamonds on the sides empowers the stone's beauty.
